Data Source:	Federal Government PPE Control Tower and Queen Street Warehouse Inventory Tracker								
Notes and Assumptions: (IMPORTANT)	>>Certain cells may include a comment. The main intent is to provide clarity on how numbers are calculated and/or obtained.								
	>>The PPE supply tracker is a snapshot of the current PPE levels and the estimated number of units the province is expecting to receive from the Federal Government. Hence the numbers are highly volatile.								
	>>In PHAC possession means that the PPE units are at the PHAC warehouses and shipment TBD while the Not in PHAC possession means that PHAC did not receive the PPE units but they are expecting to procure based on the current and future contracts with vendors (Please refer to Fed-Future tabs for specific shipment status) .								

PPE Category		Current PPE Levels (Updated Weekly)		PPE Supply Projection (2020-2021)-Federal and DHW					Passed the Due Date (updated Monthly)
Sub-Category	Sub-Category	Current PPE Levels at the warehouse and ready for use (Excludes non vetted/approved) (Inserted Manually)	Adjustment	Expected to arrive in October 2020	Expected to Arrive in November 2020	Expected to Arrive in December 2020	Expected to Arrive in January-June 2021	Total Estimated PPE	Passed the Due Date (PPE Procured through DHW and FED)
				*The following PPE Units include the "in PHAC Possession" and "Not in PHAC possession"					
Respirators	N95/KN95 Masks (Not fit tested)	95,208	0	2,636	100,514	30,417	211,934	345,501	0
